Strengths	<ul style="list-style-type: none"> • ASSET is very well established. Its Bursary Programme's history goes back to 1972 under the auspices of the South African Institute for Race Relations (SAIRR). The Learner Development Programme (LDP) started in 1982. Both programmes have good track records and are sought after by many. • ASSET is one of only three NGO's in South Africa that give out NSFAS loans (National Student Financial Aid Scheme) to students from disadvantaged communities. • ASSET is making a difference to the many lives of disadvantaged individuals who in turn are able to break the vicious cycle of poverty in their families. • ASSET is very well networked with strategic stakeholder partners who have a vested interest in the educational needs of disadvantaged communities. • ASSET has a committed Board of Directors and highly skilled and dedicated staff who ensure that ASSET achieves its mission and operates in an efficient, effective and ethical way. • ASSET's current donors have always been and still are committed and loyal to the organization over the years.
Greatest needs (max. 3) + cost	More funding for bursaries: one of our longstanding donors will no longer be funding bursaries from 2017: Cost: 100.000 euro annually.
Added value SPZA for your organisation	SPZA adds value to ASSET by seeking funds on our behalf. Being part of SPZA is a means of networking with many service providers and donors.
